PROFESSIONAL SUMMARY

Full-Stack Developer specialized in transforming manual and inefficient business processes into scalable digital systems with measurable operational impact. Experienced working across government, academic, and private sector projects, delivering solutions that reduce costs by up to 80%, cut errors by 50%, and improve processing times by 40–60%. Strong ownership of end-to-end development, working directly with stakeholders to translate real operational needs into maintainable, high-impact applications across web, mobile, and backend platforms.

PROFESSIONAL EXPERIENCE

Orbitas Software Development – Multiple Business Systems

Full-Stack Developer | December 2025 - Present (Contract via Professionals Services)

Tech Stack: .NET (C#), React, Nuxt, Flutter, SQL Server, REST APIs

Developing and maintaining multiple business systems in active development, working directly and continuously with clients to deliver tailored solutions across different industries and technology stacks.

- Leading development of regional vehicle rental and sales platform serving Nicaragua, Honduras, El Salvador, and Costa Rica with cross-border transaction capabilities.
- Contributing to real estate management and sales system, implementing property listings, transaction workflows, and client relationship features.
- Developing on-demand delivery system for SMEs with web and mobile interfaces, similar to marketplace platforms but tailored for small business operations.
- Collaborating directly with clients throughout development cycles to gather requirements, validate features, and ensure business alignment.

Universidad Nacional – Lanaku, Hotel Management System

Back-End Developer | July 2025 - November 2025

Tech Stack: Laravel (PHP 8, Laravel 12), MySQL, REST APIs, Postman

Built structured backend modules for hotel operations delivering a live system used by Tourism students, bridging academic theory with real-world application.

- Automated check-in/out and room assignment processes, reducing operational time by 30-40%.
- Developed validation logic ensuring data integrity, cutting errors by approximately 50%.
- Replaced commercial PMS systems (Opera/Oracle), achieving 70-80% annual cost reduction.

Municipality of Nicoya – ZMTMN, Citizen Portal & Admin Dashboard

Full-Stack Developer | January 2024 - June 2025

Tech Stack: React (TypeScript), NestJS, REST APIs, Vite

Built public-facing forms and administrative dashboards for maritime-zone permit management with validation, authentication, and real-time tracking.

- Digitalized manual procedures, reducing processing time by 40-60% and costs by 20-30%.
- Implemented validation logic cutting invalid submissions by 35-45%, enhancing record accuracy.

TECHNICAL SKILLS

Frontend:	Angular, React, Nuxt, TypeScript, JavaScript, HTML, CSS
Backend:	C#, .NET, ASP.NET, NestJS, Node.js, PHP, Laravel, Python
Databases & BI:	SQL Server, Oracle Database, Oracle APEX, MySQL, MariaDB, Power BI
Mobile:	Flutter (Dart)
Dev Tools:	Git, GitHub, Azure DevOps, Docker, Postman
Practices:	REST APIs, Clean Architecture, Testing, CI/CD
Scripting & Automation:	Python

EDUCATION & CERTIFICATIONS

EDUCATION

Bachelor's Degree in Information Systems Engineering

Universidad Nacional (UNA)

November 2025

CERTIFICATIONS

- Claude Code in Action — Anthropic, 2025
- Scrum Fundamentals Certified — CertiProf, 2024
- Forensic Computing Bootcamp — Academia Progenios, 2025

ADDITIONAL INFO

Languages

Spanish: Native

English: B1 (Reading, Writing, Speaking)
